## OBJECTIVE

---

My objective is to be able to pursue a career in a field that will give me the ability to exercise my skills, expand my knowledges further more and be productive by providing out of the box solutions. My will is to personally become a better engineer by dealing with challenging tasks.

## EXPERIENCE

---

Thessaloniki, Sindos

*Sep 2021 - Present*

### Undergraduate Student

*International Hellenic University*

During my studying years in IHU i've excerciced my skills in Electronics, Microcontrollers, Embedded Systems and 3D Printing. To challenge my knowledges, I've come accross with demanding projects which led me to become the Team leader of the 3D Printing team in I.D.A.C (Implementation of Digital and Analog Circuits) . I have great knowledge in programming languages such as Java and Python and basic in HTML and C++.

## EDUCATION

---

Thessaloniki

*2018 - 2021*

*High School*

Thessaloniki, Sindos

*2021 - Present*

### Information and Electronics Engineering

*Internation Hellenic University*

## SKILLS

---

- 3D Printing
- Electronics
- Microcontrollers
- Embedded Systems
- Programming
- Engineering
- Quick Problem Solving
